

CONTROLLERS

Wifi Converter from RF to Wifi Signal

- Connect multiple devices and controllers to the easy to use app Works with smartphones and tablets (Android and ios)
- Control multiple zones

810107
12/24 VDC Input Voltage

RF Wifi Receiver Unit for Single Colour, RGB, and RGBW

- Wifi Interface available
- Works with multiple wall controllers and remotes
- Wifi RF convertor can be connected to work with Smart Phone App
- Constant Current 375mA/700mA and Constant Voltage versions available

810108
12-36 VDC Input Voltage

Glass Touch RGB Wall Panel

- Works with multiple wall controllers and remotes
- User-friendly interface, easy and simple operation
- Control up to 3 zones, each zone can be set for endless receivers
- Set 4 scenes in each zone
- Preset 10 changing modes, with pause function
- Synchronization function of pattern changes to ensure consistent change forever
- Dim brightness of each R, G, B, and W channels in order to mix millions of colours

810109
12/24 VDC Input Voltage

Full Touch RF Remote for RGB(W)

- User friendly interface, easy and simple operation
- Set 8 scenes in each zone
- Operation return function
- Control up to 8 zones, each zone can be set for endless receivers
- Each receiver can be controlled by maximum of 8 different remotes Preset 10 colour changing modes, with pause function
- Synchronization function of pattern changes ensure consistent change forever
- Ability to dim brightness of each R, G, B, and W channels in order to mix millions of colour combinations
- Soft touch screen

810112
12/24 VDC Input Voltage

CONTROLLERS

Full Touch Colour Wheel RF Remote for RGB(W)

- Adjustable colour changing speed with 8 levels, quickest speed is 10s, slowest is 900s
- Ability to control 8 zones separately, each zone can be set for endless receivers
- Changing modes of 2 zones can be synchronized without any confusion Controlling RGBW, 4 colours that achieve more selectable colours than traditional
- RGB control
- Built in 10 changing modes
- Synchronization function of pattern changes ensure consistent change forever
- Ability to dim brightness of each R, G, B, and W channels in order to mix millions of colours

810113
12/24 VDC Input Voltage

RF Remote with Touch Colour Wheel for RGB(W)

- High sensitivity and high stability touch colour wheel for fast and precise colour control
- RGB mixed warm white, cold white, and natural white can be directly accessed by touching the key
- User friendly interface, easy and simple operation
- Control up to 4 zones, each zone can be set for endless receivers, each receiver can be controlled by a maximum of 8 different remotes
- Preset 10 colour changing modes, with pause function and pattern
- changing
- Synchronization function of pattern changes ensure consistent change forever
- Ability to dim brightness of each R, G, B, and W channels in order to mix millions of colour combinations

810132
12/24 VDC Input Voltage

RF RGBW Remote Controller

- Works with RF RGBW Receiver
- Colour wheel, touch to select colour
- Can increase or decrease intensity of R, G, B, and W channels
- User-friendly interface, easy and simple operation
- Single zone wireless control
- Ability to select and save colours
- 10 built-in modes
- Enable to dim brightness of each R, G, B, and W channels in order to mix millions of colours
- Play dynamic changing pattern with different speeds

810134
12/24 VDC Input Voltage
